

## NEW BOARDVITALS PLATFORM ADMIN FEATURES

Empower your students to achieve excellence in their career journey more effectively with BoardVitals than ever before. We're excited to introduce new administrative features and tools designed to allow faculty to create assignment templates with more customization and flexibility than ever before.

## NEW! ASSIGNMENT TEMPLATE CREATION FEATURES

### Content Customization

**Difficulty Level:** Choose all, or a combination of difficulty levels for questions on an assignment template so instructors can better target assignments to students' current level of learning.

**Keyword Search Filter:** Select questions for assignments based on keywords, which allows for more granularity compared to selecting by subject areas.

### Quiz Customization

**Quiz Interface Selection:** For Institutions that have purchased the Advantage Premium option, instructors can choose whether to send the assignment using our default Enhanced Learning interface or the Board Exam interface students will see on test day (available on select question banks only).

#### Quiz Mode Selection:

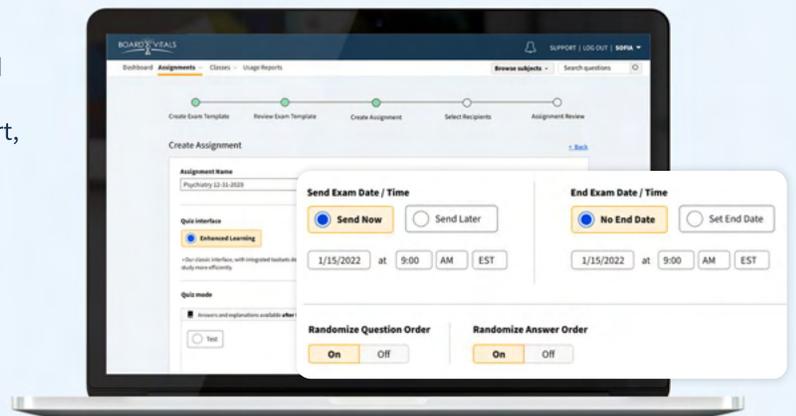

**Tutor Mode:** A blend of Test and Study modes, Tutor mode allows students to see the answer and explanation to a question during the assignment but will record their *first* answer attempt for performance. This allows for real-time review while capturing accurate data about students' strengths and weaknesses.

**Timed Mode and No Pause Selection:** Timed mode is now available for any assignment mode. For added test security, select Disable Pausing. When selected, students cannot pause the assignment once they start, and the time will continue to count down.

**Send Quiz/Due Date Time Selector:** Want to end an assignment at 11:59pm rather than midnight? You can now specify a start or due date and time in your designated time zone for your assignment.

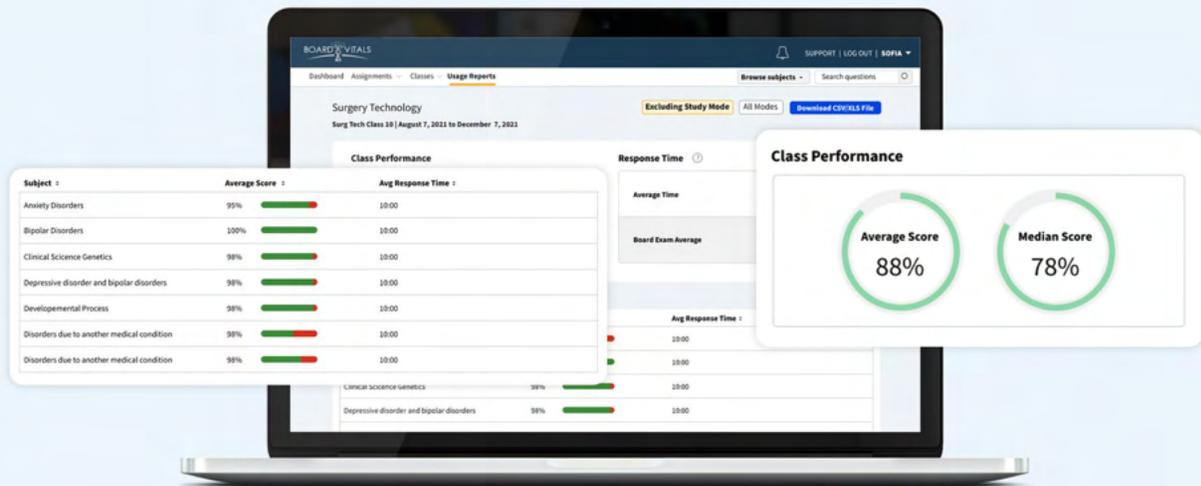

-  **Randomize Question Order:** You have the option for all students to receive assignment questions in the same order - great for in class review - or in a randomized order to enhance test security.
-  **Student Accommodations:** When assignments are timed or have a due date, you now have the ability to give certain students more time or an extended deadline.
-  **Hide Results or Review From Students Until a Specified Date and Time:** For added test security, you can choose to hide all results, including score, from students, and/or hide your students' ability to review questions on an assignment until a specified date and time.
-  **Edit Assignments Before and After Sending:** Forgot to add a particular student or need to change an assignment's due date? Now you can with the ability to edit assignments even after they have already been sent.

## Data & Analytics

-  **Class Average Performance:** See how your whole class performed on an assignment, which allows you to highlight strong and weak subject areas, while also identifying potential weaknesses in the curriculum.

## ADDITIONAL NEW FEATURES COMING SOON!

- ✓ Class Performance Reports

## ABOUT BOARDVITALS

Trusted by 2K+ Institutions

BoardVitals helps healthcare practitioners and students train for certification and recertification exams, in-service exams and meet continuing education requirements across more than 70 health and medical specialties. BoardVitals brings content from universities, top healthcare professionals, and major publishers into a single platform, creating the largest training ecosystem in health and medicine. BoardVitals contributors are experts from top-tier academic and practicing clinicians.
